**Attachments:** Figure 1.pdf; Figure 2.pdf; Aerojet\_CH2MHILL\_SplitSamplePlan\_Draft.pdf

Hello, Tom.

Thank you for preparing the Aerojet Area 40 Ambient Air split sample SAP/QAPP so quickly. Please consider this email EPA approval of the document with the following comments:

- Please update the EPA Community Involvement Coordinator to Jackie Lane, 415-972-3236, [Lane.Jackie@epa.gov](mailto:Lane.Jackie@epa.gov)
- Please ensure you and Chris communicate and agree upon using the same field condition data values so AR's lab and the EPA R9 lab use the same inputs for calculations.
- Due to short turn-around time and work load, Matt Plate, the EPA QA Lead, needs more time to review the AA split SAP/QAPP document and make comments. Please proceed with split sampling as planned on 1 Sept, and update the SAP/QAPP as soon as possible following Matt's review and comment submittal.
- Please also save the Radiello plates and white diffuser membrane for future sampling.

Tom and Chris, please communicate with each other directly while I'm out the next two weeks, and consult Matt Plate and Dan Stralka as needed. Please be sure to cc everyone on pertinent emails also.

I have signed the attached pdf of the SAP/QAPP.

Thank you,  
Lynn

Lynn- Attached is our DRAFT Area 40 Split Sampling SAP/QAPP for your review.

Please let me know if you have any questions. With your approval, we will proceed with the split sampling on Friday with the Aerojet team.

Thanks,

**Tom Lae, PG**
